

Lightning to Lightning + AUX 3.5mm mini jack adapter, Mcdodo

Lightning to Lightning + AUX 3.5mm mini jack adapter, Mcdodo CA-6340 (black)

Ref: 6921002663403

Lightning to Lightning + AUX mini jack 3.5mm adapter, Mcdodo CA-6340 (black).

The Mcdodo CA-6340 adapter is a practical accessory that will satisfy the needs of any iOS device user. With Lightning and 3.5mm ports, it allows you to charge your device and listen to music at the same time. Moreover, the use of high-quality materials makes the product an ideal accessory for everyday use. In addition, you can control your music player from the switch integrated into the headphone cable.

Multifunctionality and compatibility

The Mcdodo CA-6340 adapter is equipped with a Lightning port and an AUX mini jack 3.5mm port, allowing you to charge your device and connect your headphones at the same time. It is compatible with all iOS devices, making it a universal solution for iPhone and iPad users. With up to 2A of current, the adapter allows you to quickly charge your devices through the Lightning port.

Exceptional sound quality

Apple's original chip ensures excellent sound reproduction and a stable connection. This is ideal for live broadcasts, karaoke, games or video calls where sound quality is crucial. The ability to connect headphones to the 3.5mm audio port allows you to comfortably listen to music or make calls.

Robust design

Made of zinc alloy, the Mcdodo CA-6340 adapter is characterized by exceptional durability and resistance to corrosion and damage. Its light weight (2.4 g) and short cable length (0.1 m) make it easy to carry and use, whatever the situation.
