Adapter / connector USB-C to Lightning Mcdodo CA-1440

Ref: 6921002614405

Adapter / connector USB-C to Lightning Mcdodo CA-1440

Mcdodo CA-1440 USB-C to Lightning adapter / adapter.
The Mcdodo CA-1440 adapter is the perfect solution for iOS device users looking for a reliable and versatile accessory. With a USB-C to Lightning interface, the adapter allows for fast charging and data transfer, while offering exceptional durability and resilience for everyday use. In addition, the lightweight and compact design makes it easy to store and transport.

Efficient charging and data transfer
The CA-1440 supports charging iOS devices with a maximum current of 2A, which translates into faster and more efficient replenishment of your iPhone, iPad or MacBook. In addition, the adapter supports OTG functionality for fast data transfer, making file transfer much easier.

Durable design
The use of aluminum alloy ensures fast heat dissipation, which protects your device from overheating. In addition, the nylon cover makes the product resistant to bending, deformation and pulling, which guarantees long-term use without worrying about damage.
