

Aukey PC-TM11A case for iPhone 15 (transparent)

Ref: 689323786534

Aukey PC-TM11A case for iPhone 15 (transparent)

Aukey PC-TM11A case for iPhone 15 (transparent)

The PC-TM11A case is designed to provide superior protection for the iPhone 15 while maintaining its natural beauty. Made of Bayer material, it provides long-lasting transparency and resistance to yellowing, keeping your phone looking like new for a long time. Military-grade TPE protection absorbs shock and protects the phone from damage caused by drops and bumps. The Aukey PC-TM11A case is designed with precise cutouts that provide easy access to all ports and buttons. This allows you to use all the functions of your phone without having to remove the case.

Durable transparency and resistance to yellowing

The high-quality Bayer material used in the Aukey PC-TM11A case provides excellent transparency that will not fade over time. As a result, the phone retains its original appearance, and the case effectively protects it from damage and scratches.

Compatibility with MagSafe

The case has built-in N52 magnets, which are compatible with MagSafe accessories. This means you can easily use wireless chargers and other MagSafe accessories without having to remove the case.

Resistant to drops from a height of 3 meters

The Aukey PC-TM11A case offers exceptional protection against drops from heights of up to 3 meters. Thanks to its advanced shock-absorbing technology, it protects the phone from mechanical damage that can occur during accidental falls. What's more, the raised edges around the screen and camera provide additional protection against scratches and bumps. This keeps the phone safe even during everyday use.

Comfortable, secure grip

The ergonomic design of the case provides a comfortable and secure grip, which minimizes the risk of the phone accidentally slipping out of your hand. Delicate textures on the sides of the case further increase grip security.
