

Redtiger HW-F7N-DT 4-fuse wiring kit

Redtiger HW-F7N-DT 4-fuse wiring kit

Ref: 5906168436758

Redtiger HW-F7N-DT 4-fuse wiring kit

The Redtiger HW-F7N-DT cable kit is the ideal solution for drivers looking for a reliable way to power their car cameras. With features such as low voltage protection and parking monitoring, the product provides peace of mind and safety in any situation.

Battery discharge protection

With an automatic low voltage shutdown feature, the Redtiger kit protects your vehicle's battery from being discharged. When the voltage drops below 11.8 V (+0.2), the power supply is cut off after 60 seconds. The solution used ensures that there is enough energy to start the engine even after a long period of standstill.

Hassle-free installation

Installation of the Redtiger HW-F7N-DT kit does not require specialized knowledge. The kit comes with detailed instructions and different types of fuses (Medium, Small, Mini, Micro) to fit most vehicles. The wire connection is clearly marked - black wire for ground, yellow for constant power, and red for ACC power. The kit includes a 3.5-meter cable, which provides sufficient flexibility during installation. The components are designed to be easily concealed and maintain the aesthetic appearance of the vehicle.

24-hour parking monitoring

The Redtiger kit allows you to continuously monitor your vehicle's surroundings, even when the engine is off. This allows your car camera to record everything that happens around the car around the clock, and you can enjoy extra protection against potential threats. The cables are available in Micro USB and USB-C port versions for compatibility with a wide range of devices. A constant 5V/2.5A output guarantees stable power to your car camera or other devices.

Included:

3.5-meter long power cable
4 types of fuses: Medium, Small, Mini, Micro
Instruction

Manufacturer: Redtiger
Model: HW-F7N-DT
Input: DC 12V-24V
Output: 5V-2.5A
USB-C
Low voltage protection
Automatic power cut-off when voltage is below 11.8V (+0.2)
Cable length: 3.5 meters
Fuse types: Medium, Small, Mini, Micro
