Blackview R30 Smartwatch (Black)

Blackview R30 is a reliable assistant on your wrist that supports you every step of the way. Monitoring heart rate, saturation, sleep quality and a menstrual calendar are just some of the features that allow you to take care of your health and well-being on a daily basis. More than 100 sports modes are available, and you can personalize the look of the watch by choosing from a variety of dial designs.

Taking care of your health

With Blackview R30 you have full control over your health! The smartwatch allows you to monitor your heart rate and saturation 24 hours a day, so you can quickly detect any abnormalities or sudden changes. The sleep monitoring function will help you track the number of hours slept and the quality of your rest, and the menstrual calendar will help you monitor your menstrual cycle.

For healthy lifestyle enthusiasts

With more than 100 sports modes, you have unlimited possibilities to monitor your physical activity and achieve new workout goals. Running, cycling, or maybe playing basketball? The decision is up to you! The smartwatch also measures the number of steps, calories burned and distances traveled.

Stay connected

The Blackview R30 smartwatch will instantly notify you of any important news or social media notifications, allowing you to stay in touch with the world. What's more, you can conveniently reject phone calls without having to reach for your phone - just pair it with the smartwatch via Bluetooth!

More possibilities

The R30 is the perfect everyday companion. With the smartwatch, you can control your phone's music player, check the current weather forecast or use a stopwatch. Relaxing breathing exercises are also available to help reduce stress and improve your overall well-being.
