Darmoshark N3 Wireless Gaming Mouse (black)

Get even more enjoyment from playing your favorite games. The Darmoshark N3 wireless gaming mouse uses a high-performance PAM3395 optical sensor with a resolution of up to 26,000 DPI and offers up to 3 connectivity modes (Bluetooth 5.0, 2.4G and USB-C). There will be 7 programmable buttons at your disposal. Kailh GM8.0 switches ensure maximum precision, responsiveness and comfort. From now on, you will enjoy control over your every move and easily achieve the victory of your dreams!

High-performance optical sensor

The Darmoshark N3 mouse is equipped with an advanced PAM3395 optical sensor, offering up to 26,000 DPI resolution, 650 IPS tracking speed and 50G acceleration. As a result, the device provides maximum precision and responsiveness, which is essential during dynamic games.

Three connectivity modes

Play the way you like to play. The Darmoshark N3 mouse offers 3 modes of connectivity - wirelessly using Bluetooth 5.0 or a 2.4G connection, and wired using a USB-C cable. This allows you to use the device both at home and at gaming tournaments.

Programmable buttons and macros

Create the perfect mouse to suit your gaming style. The N3 is equipped with 7 programmable buttons that can be customized with Darmoshark software. You can create macros, change lighting effects and make changes to the DPI settings.

Durable Kailh GM8.0 switches

The use of Kailh GM8.0 switches, which have a lifespan of up to 80 million clicks, ensures extreme durability and precision. You can be sure that the Darmoshark N3 mouse will serve you reliably during many gaming sessions.

Ergonomic, lightweight design

When designing the Darmoshark N3 mouse, the focus was also on user comfort. The ergonomic shape fits perfectly in the right hand, and the lightweight design (about 58 g) ensures comfort even during prolonged gaming sessions.
