Darmoshark M3 wireless gaming mouse (black)

Dominate every game with the Darmoshark! The M3 Wireless Gaming Mouse offers ultimate precision thanks to the PixArt PAW3395 sensor with 26,000 DPI resolution. Its lightweight construction, ergonomic design and advanced macro programming capabilities make it an ideal choice for demanding gamers. Enjoy reliable wireless connectivity and long-lasting performance with a 500 mAh battery for up to 83 hours of continuous gaming.

Unparalleled precision with the PixArt PAW3395 sensor

With its advanced PixArt PAW3395 optical sensor, the Darmoshark M3 mouse offers incredible precision and smooth movement. The 26,000 DPI resolution provides exceptional accuracy, which is essential during intense gaming sessions. Whether you make fast movements or care about precision, the device will meet all your requirements.

Full control with macro programming

The M3 offers 5 programmable keys. You can customize the DPI settings, lighting effects and functions of individual buttons to perfectly match the mouse's performance to your playing style. Intuitive software allows you to create and manage macros. Now you can easily gain an edge over your opponents!

Lightweight and ergonomic design

Comfort while playing is essential, so the M3 was designed with ergonomics in mind. Its weight is approximately 58 g (± 5 g). The mouse also provides a firm grip and minimizes hand fatigue during long gaming sessions. Its special coating reduces friction for smoother and more precise movements.

Surprising performance and 3 connectivity options

The 500 mAh battery provides up to 83 hours of continuous use without backlighting. To save power, the device automatically enters sleep mode after 5 seconds of inactivity. The mouse supports 3 ways of connection - wired (USB-C), as well as wireless 2.4G or Bluetooth. Enjoy reliable transmission and fast response time during dynamic games!
