Hobbywing Multifunction program LCD box PRO

Hobbywing LCD PRO multifunctional programming box

The Hobbywing LCD PRO multifunction box is a tool designed for programming and configuring Hobbywing brand speed controllers. It allows you to fine-tune ESC parameters to optimize performance and customize operation. The box is powered by a power connector from 5 to 12.6 volts or by an ESC programming connector from 5 to 8.4 volts, providing flexibility and convenience. Compact dimensions (105.6 mm long, 59 mm wide, 24.4 mm high) and low weight (85 g) make the device easy to carry and use in a variety of conditions. The built-in LCD display makes it easy to read parameters and make quick changes to settings, making the programming process intuitive and convenient. The Hobbywing LCD PRO is an indispensable tool for any RC model enthusiast who wants to get the most out of their RPM controllers.
