Darmoshark M3s PRO wireless gaming mouse (gray)

The Darmoshark M3s PRO wireless gaming mouse is designed for demanding gamers. It features the PAW3395 sensor, which offers a resolution of up to 26,000 DPI, guaranteeing maximum precision. The ultra-lightweight construction and ergonomic design ensure comfort during long hours of gaming sessions. There are 3 connection modes - 2.4G, Bluetooth 5.0 and wired via USB-C. Rugged HUANO switches, programmable macros and RGB backlighting are additional perks. Take your skills to the next level and get an edge in every game!

Surprising precision

The Darmoshark M3s PRO mouse is equipped with an advanced PAW3395 chip, which offers a resolution of up to 26,000 DPI and 50G acceleration. With adjustable DPI (400, 800, 1,600, 3,200, 4,800), you can easily customize the sensitivity of the device to enjoy amazing precision during the most important moments in the game. Image processing at 26,000 fps and a maximum speed of 650 ips ensures fast and accurate tracking of movements.

Rugged HUANO switches

Thanks to the HUANO Blue Shell Powder Dot switches, the mouse provides a lifespan of up to 80 million clicks. High-quality buttons guarantee fast response times. Darmoshark M3s PRO will be your secret weapon on the way to victory for a long time!

Convenience of use

The M3s PRO is equipped with F-SWITCH scrolling mechanisms that allow for precise and smooth scrolling. The ability to program macros allows you to customize the mouse, which increases comfort and efficiency during gaming. So you can enjoy full control over every aspect of the game.

3 connection modes

The device offers 3 connection modes - 2.4G, Bluetooth 5.0 and wired via USB-C, ensuring flexibility and reliable connection in any situation. All for your convenience!

Long working time and low power consumption

The powerful 500 mAh battery provides up to 140 hours of continuous use on a single charge. This allows you to focus on breaking records without worrying about the need to renew energy frequently.

Ultra-lightweight design

The mouse's lightweight design (about 54g) reduces hand fatigue during long gaming sessions, while providing comfort and control. Ergonomic design with black rubber coating and Teflon PTFE glides guarantees smooth movements and a secure grip.
