Darmoshark K8 EF switch Wireless Gaming Keyboard (black)

Darmoshark K8 wireless gaming keyboard EF switch (black)

With its dimensions of 333×144×41 mm and a weight of about 942 g, the Darmoshark K8 gaming keyboard offers a solid design that provides stability and comfort during prolonged use. It has 81 keys, and its lifespan of 80,000,000 clicks makes it not only ideal for intensive gaming, but also for everyday use, guaranteeing durability and reliability.

Connectivity and long life

The K8 keyboard supports both wired and wireless connection - Bluetooth or 2.4G connectivity. It is equipped with a built-in lithium-ion battery with a capacity of 4,000 mAh. As a result, users can enjoy the freedom of wireless use and long battery life on a single charge. The ability to switch between wired and wireless modes with a three-step switch allows the keyboard to adapt to different situations and user preferences. The backlight automatically turns off after 2 minutes of inactivity and enters sleep mode after 30 minutes for efficient power management and extended battery life.

Lighting and multimedia controls

The Darmoshark K8 offers rich customization options for lighting, including 8 colors and 15 different lighting effect modes. Users can adjust the brightness and the speed at which the effects change to create a gaming setup that perfectly suits their preferences. In addition, the keyboard features dedicated multimedia control keys and functional keys for brightness, volume and playback control,

providing convenience when using a variety of applications and multimedia content.

Pairing and system compatibility

To pair the keyboard with the 2.4G receiver, simply hold down the Y key while the green light flashes rapidly, then insert the receiver into the USB port of your computer. The K8 keyboard is compatible with Windows and Mac operating systems, which can be changed quickly by holding down the FN + right Ctrl key combination for 3 seconds. It is worth noting that the multimedia keys are only supported on Windows and Android systems.
