

## Filter ND64 PolarPro Quartz Line for 77mm lenses

Ref: 817465021392

Filter ND64 PolarPro Quartz Line for 77mm lenses

PolarPro Quartz Line ND64 filter for 77m lenses.

Take your photography to the next level and discover the possibilities offered by the PolarPro Quarts Line ND filter! It provides excellent control over the amount of light reaching the camera, allowing you to get smooth and professional-looking shots even in bright lighting conditions. Great for shooting in sunny weather when the light is intense. They feature exceptional scratch resistance, as well as water and oil resistance.

Your key to perfect shots

The ND64 filter gives you precise control over exposure, providing the perfect balance between the light and dark areas of your photos. By reducing the amount of light by 6 degrees, the filter allows you to achieve the effects of long exposures, which translates to smooth motion shots, as well as creating depth of field in sunny scenes.
