Mcdodo CA-5001 USB-A to Lightning cable, 100W, 1.2m (blue)

Mcdodo CA-5001 USB-A to Lightning cable, 100W, 1.2m (blue).

Introducing the Mcdodo CA-5001 cable from the Comet series, where innovation meets elegant design. This 1.2-meter cable, was developed with Apple devices in mind. It offers a charging current of 3A, providing fast charging. Data synchronization, robust construction and a practical digital display are additional advantages of the cable.

Practical display

A unique feature of the Mcdodo CA-5001 cable is the built-in digital display, which indicates the current charging level of the iPhone. This state-of-the-art solution allows you to monitor the state of the battery in real time, adding comfort and control to the whole process.

Fast charging

Enjoy the ability to quickly charge your device with a maximum current of 3A. The Mcdodo CA-5001 cable ensures not only speed, but also charging stability, so your iPhone will be ready to use in no time.

Durable design

The sturdy aluminum alloy housing and strong nylon braided cable provide the Mcdodo CA-5001 cable with unparalleled durability. This solution not only protects the cable from mechanical damage, but also provides protection from bending, extending its life.

Synchronization and charging at the same time

This versatile cable offers not only charging, but also data synchronization, allowing you to easily and quickly transfer photos, music or documents between your iPhone and computer. The efficiency and reliability of this process are guaranteed thanks to the high-quality workmanship of the Mcdodo CA-5001 cable.
