

## Waydo submersible

Waydo submersible

Ref: 6974416940905

### Waydo underwater scooter

Imagine plunging into the crystal clear water, just to explore the underwater world effortlessly. Holding the Waydo underwater scooter in your hands, you can swim freely like a dolphin. This compact and portable product is smaller than a 1.5-liter bottle of your favorite beverage, making it incredibly convenient to carry. It uses a carefully designed 4-blade propeller and is easy to use. Designed for maximum convenience, it will be the perfect companion for any underwater adventure.

### Versatile and functional

The Waydo underwater scooter gives you countless possibilities for use. Thanks to quick release mounting brackets (to be purchased separately), you can easily attach it to your SUP board, surfboard or use it while diving. What's more, you can connect it to your camcorder or OLED indicator to record the perfect video. Now documenting your underwater experiences is even easier.

### Unparalleled performance

With Waydo, you can dive as deep as 60 meters (note: this depth is only allowed for technical diving), exploring the depths of the oceans. The maximum speed you will reach is 1.4 m/s with one scooter, and 2 m/s with two, giving you extraordinary speed and maneuverability in the water. Powered by a 98Wh lithium-ion battery, it provides up to 56 minutes of fun.

### Fast charging and long life

The built-in rechargeable battery allows for fast charging via a 100W USB-C port. It takes only 1.2 hours to fully charge, which means you never have to wait long to get back to your underwater escapades. But the advantages don't end there! The reverse charging function makes the scooter successfully renew the energy of smartphones, sports cameras and even laptops. This is an exceptional convenience and support in emergency situations.

### Additional capabilities and safety

You can also equip the Waydoo with an accessory holder (available for sale separately) that supports up to three auxiliary accessories, allowing for even more personalization and functionality. In addition, the kid-friendly design makes the scooter safe for the little ones, allowing the whole family to enjoy underwater adventures.

### Explore new worlds

Whether you're an avid diver, surfer or just love spending time on the water, the Waydoo underwater scooter is your indispensable companion. Its compact and portable design makes it easy to take anywhere you want to go. Join the ranks of satisfied users who have discovered a new way to enjoy water activities, and dive into amazing underwater adventures with Waydoo.
