Ref: 6921002688109

Mcdodo CA-8810 USB-C to Lightning cable, 36W, 1.2m (black)

Mcdodo CA-8810 USB-C to Lightning cable, 36W, 1.2m (black)
The Mcdodo CA-8810 cable is an extremely powerful and durable USB-C to Lightning cable, offering 36 watts of power and a maximum current of 3 amps. It provides fast and safe charging thanks to the E-marker chip. In addition, the Velcro attached to the cable makes it easy to organize, preventing tangled wires.

Durable construction
Made of zinc and nylon alloy, the Mcdodo CA-8810 cable features high resistance to bending, wear and corrosion. It is unafraid of overheating and mechanical damage, ensuring safety during use.

Fast and safe charging
Thanks to the E-marker chip, the cable automatically adjusts the amperage to the connected device, guaranteeing fast and safe charging. In about 30 minutes you will charge your equipment to 60%. In addition, the built-in display indicates the charging power in real time, allowing you to monitor the charging process in real time.

Wide compatibility
The Mcdodo CA-8810 cable is compatible with a wide range of devices equipped with a Lightning port, from iPads to iPhones and iPod
