Mcdodo CA-1960 USB-C to Lightning spring cable, 36W, 1.8m (black)

Mcdodo CA-1960 USB-C to Lightning spring cable, 36W, 1.8m (black)
The Mcdodo CA-1960 cable combines versatility, durability and high performance. It offers 36W of power and supports fast PD charging, so it will quickly renew your equipment's energy. In addition, it allows data transfer at 480 Mbps.

Support for fast charging
The Mcdodo CA-1960 supports PD technology, allowing you to charge your Apple devices quickly and efficiently. With a maximum current of 3 A, the cable provides fast energy recovery, for example, charging an iPhone 8-13 to 30% in about 15 minutes. With a built-in chip, the Mcdodo CA-1960 ensures safe charging of your devices. Low power consumption and stable signal transmission make charging not only fast, but also safe.

Durable and stretchable design
Made of aluminum alloy and nylon, the cable is characterized by exceptional durability. Its stretchable design allows you to adjust the length from 43 cm to 180 cm, making it extremely practical for a variety of situations. In addition, the robust design is resistant to deformation, guaranteeing long-lasting use.

Fast data transfer
