USB-C to Lightning adapter, Mcdodo OT-0510, 36W

Mcdodo OT-0510 offers 36W of power, allowing you to quickly renew your equipment's energy. The adapter is made of durable aluminum alloy and silicone, making it resistant to damage and overheating. In addition, the lightweight and compact design makes it easy to transport and store. In addition, the silicone handle added to the adapter provides stability and prevents it from getting lost.

Performance and speed

The Mcdodo OT-0510 offers 36 watts of power and 3A amperage, allowing you to charge your devices quickly. Using the cable with PD, you can charge your iOS device up to 30% in just 15 minutes. This is ideal for people who need to charge their devices quickly. In addition to fast charging, the adapter also allows data transfer at 480 Mbps. This means you can quickly transfer files between devices without any delays.

Security and stability

The adapter is equipped with a dual chip that adjusts the voltage to the connected device, ensuring stable and safe charging. The aluminum finish protects against overheating and provides excellent heat dissipation. What's more, the Mcdodo OT-0510 is resistant to mechanical damage and wear.
