USB-C to lightning angle cable Mcdodo CA-3351,1.8m (black)

Mcdodo CA-3351,1.8m (black) USB-C to lightning angle cable.

The Mcdodo CA-3351 cable is made of high-quality materials, which translates into its durability and resistance to wear and tear. It offers not only fast charging, but also safety for your equipment. In turn, its angled design allows you to use your device comfortably while charging, which is ideal for gaming, watching movies or working.

Durable, thoughtful design

The Mcdodo CA-3351 cable is made of aluminum alloy and TPE, which ensures exceptional durability. In addition, the nylon braid protects the cable from mechanical damage. The cable is also equipped with an LED indicator that indicates the charging status, which will make it easier to locate your equipment after dark.

Fast charging and data transfer

With 3 A and 36 W of power, the cable allows you to quickly charge your devices, saving you time. With its help you will renew the energy of your iPhone, iPad and AirPods headphones. In addition, it provides a file transfer speed of 480 Mbps for fast data transfer between devices.

Equipment security

The cable uses Mcdodo's patented charging technology and dual chip, which translates into fast and safe charging of devices without the risk of overheating. In addition, the cable's pure copper core ensures better conductivity and lower power consumption.
