

Laser Cat Collar Cheerble KiTiDOT

Laser Cat Collar Cheerble KiTiDOT

Ref: 6971883204226

Cheerble KiTiDOT laser cat collar

Awaken your pet's hunting instinct! Cheerble brand collar is equipped with a laser that will serve as a toy for your cat. The product offers 3 modes of operation, so you can adjust its operation to the needs of your four-legged friend. You can also adjust the angle of light in the range of 45°. The collar is made of TPU material, which is skin-friendly. It is also adjustable. It is equipped with a micro USB port, so you can easily charge it.

Innovation

Traditional cat lasers require activity on your part and consume your time, so Cheerble created the KiTiDOT laser collar. Now you can work or relax while your cat is engrossed in entertainment. The collar will also improve his reflexes and keep him in great shape.

Tailored to your pet

The collar has 3 modes of operation, which you will change with the dedicated switch. When you turn the collar on, it will automatically start in NORMAL mode, during which the laser will turn on for 2 minutes and then turn off and on again. During Flickering mode, the laser flashes in very short intervals. While Constant mode will make it easier for your pet to focus on the laser. Additionally, the collar will automatically turn off after 30 minutes.

Adjustable function

The collar has a length adjustment function, so you can fit it to your cat. The maximum length of the collar is 310 cm. In addition, you can adjust the laser angle within 45° to adjust the collar to your pet's liking.

Convenient charging

The collar is equipped with a 60 mAh battery that allows it to run for up to 5 hours on a single charge. However, if you need to, you can charge the collar using the micro USB cable included in the package. It only takes an hour for the device to be ready to work again.

Comfortable

The collar is made of TPU material, which is skin-friendly and does not cause discomfort. It is also distinguished by its durability and resistance to wear and tear. Keeping it clean will not be a problem either.
