

MOFII Wireless Keyboard+Numeric Keypad+Mouse 3in1 2.4G (Milk

Ref: 6950125751049

MOFII Wireless Keyboard+Numeric Keypad+Mouse 3in1 2.4G (Milk-tea)

MOFII wireless keyboard+numeric keypad+mouse 3-in-1 2.4G set (cream)

The MOFII wireless set consists of a compact keyboard, a numeric keypad and a high-precision 3D optical mouse with 12,000 DPI resolution. The devices operate on 2.4G technology, providing a reliable connection over a distance of up to 10 meters, making them ideal solutions for those who appreciate the convenience of working without cluttering cables.

Compact and modern design

The MOFII set features a compact design. The keyboard and mouse were designed with aesthetics and ergonomics in mind, making them a perfect match for any desk. The numeric keypad further facilitates numeric data entry, which is especially useful for those working with spreadsheets and financial applications.

Wireless technology

Thanks to 2.4GHz FSK Autolink technology, the set provides a stable connection over a distance of 6 to 10 meters. This allows you to move freely around the office without worrying about signal loss. The set uses 34 RF channels, which minimizes the risk of interference and guarantees smooth operation of both keyboard and mouse.

Precision optical mouse

The optical mouse with a resolution of 1200DPI ensures high precision movements. The device is equipped with three buttons and a scroll wheel, making it easy to navigate and work with documents. Thanks to two levels of power saving, you don't have to worry about having to change batteries frequently.

Multifunctional keyboards

The numeric keypad offers 18 keys, while the wireless keyboard offers 68 standard keys that are comfortable to use. Their pressing force is 60 ± 15 gf, which ensures comfortable typing. In addition, a variety of FN functions allow quick access to keyboard shortcuts and system functions.

Economical power consumption

The MOFII set is designed with energy saving in mind. The keyboard and mouse automatically enter power-saving mode after a few minutes of inactivity, significantly extending battery life.
