

Menstrual Cup Satisfyer Feel confident (blue)

Menstrual Cup Satisfyer Feel confident (blue)

Ref: 4061504002057

Feel confident Satisfyer menstrual cup (blue).

If you haven't used a menstrual cup yet, it's high time to change that! Treat yourself to the luxury of comfort and reliability with Feel Confident from Satisfyer. The product is made of high-quality medical silicone, which is completely safe for the skin and does not cause allergies. What's more, it is fully hygienic, so you can use it every month for many years. Such a solution allows you to reduce or completely eliminate the use of sanitary pads and tampons, which is not only more friendly to the female body, but also fully ecological. And the savings on hygiene products? You won't believe it!

Full comfort during menstruation

The operation of the menstrual cup uses a vacuum, which means that when applied well, it prevents blood from coming into contact with air. As a result, bacteria do not come into contact with the blood, so it does not decompose and remains odorless. Thanks to the vacuum and large capacity of the cup, you can wear it for up to 10 hours during the day! After each completed menstruation, the cup should be scalded in boiling water. This much is enough for it to serve you for many years, so that you can enjoy freedom and comfort during each menstruation.
