Satisfyer Vibrating Ring (navy blue)

The Satisfyer Rocket Ring is an erotic gadget for couples that will more than take shared sensations to a new level. This innovative vibrating ring, made of soft, medical-grade silicone, adjusts to any size penis, wrapping around it to create a blood-stopping effect. As a result, it contributes to improved stamina and extended lovemaking. With ten vibration programs and a waterproof design, the Rocket Ring provides pleasure not of this earth and comfort in all conditions. It is also suitable for solo play.

Long-lasting love games

With the Satisfyer Rocket Ring you can enjoy longer and more intense lovemaking sessions. The flexible ring clings gently to the penis, which reduces blood flow and delays ejaculation, while providing a stronger and fuller erection. With its discreet mode, you can enjoy intimate moments anytime, anywhere.

More than a ring

Rocket Ring not only delays ejaculation and increases erection, but also stimulates the clitoris. Carefully designed, it adheres perfectly to the entire surface, thus offering stunning pleasure to your partner. There are up to 10 vibration patterns at your disposal - from gentle to more intense.

Fully hygienic and waterproof

The ring was created from high-grade medical silicone, which means it is hypoallergenic and fully safe for the skin. What's more, it is completely hygienic and you can easily wash it under running water. But the best part at the end! Rocker Ring is distinguished by its IPX7 waterproof rating, which means you can use it in the bathtub and shower. You are only limited by your imagination when it comes to love-making with Satisfyer.

Robust battery and easy charging

The fun can last even longer! The built-in rechargeable lithium-ion battery provides a long run time, and you'll renew its energy with the magnetic cable you'll find included. This ensures that the Rocket Ring is ready for action along with you!
