GameSir T4n Wireless Controller (white)

Increase your winning stats with GameSir. The T4n controller is compatible with Nintendo Switch, PC, iOS and Android. It comes with advanced features such as GameSir™ Hall Effect Sticks, personalized RGB lighting effects and two vibration motors. The device also supports 3 ways of connection.

Revolutionary precision

Thanks to advanced GameSir™ Hall Effect technology, the T4n controller provides exceptional precision and smooth movements. Drifting has been eliminated and the lifespan of the sticks has been increased to 5 million cycles, so you can enjoy gaming without any interruptions.

RGB lighting effects

Give your controller a unique touch with stylish, colorful RGB circles around the analogs. Customizable lighting effects allow you to create a unique atmosphere that will fit perfectly with any game.

Multi-platform compatibility

The GameSir controller works on multiple platforms. Whether you play on Nintendo Switch, PC, iOS or Android, the T4n model ensures

smooth and seamless switching between devices. It also supports Switch, Dinput, Xinput, Arcade and MFi modes and works with Windows 10 and later and Android 8.0 and later.

Three connectivity options

The T4n supports three ways to connect - Bluetooth, 2.4GHz and wired via USB-C port. This allows you to easily switch between different devices, enjoying freedom and convenience without any lag.

Even more immersion

Two vibration motors, which are located in the controller's handles, deliver both strong and gentle vibrations. As a result, every action in the game, from shooting to driving over rough terrain, is felt in a realistic way, and you can enjoy greater immersion during gameplay.

Precise motion control

Take advantage of motion control and fully enter the gaming world. Tilt, shake or rotate the controller to perform interactive movements that add realism and excitement.

Programmable macro buttons

Optimize your gameplay with two programmable macro buttons on the back of the controller. With the ability to assign any combination of buttons, including complex combo moves, you can customize the action of the device to suit your needs and playing style.

Ergonomic, durable buttons

The GameSir Nova T4n controller's buttons are designed for comfortable use. Micro-switches with up to 5 million clicks and soft rubber pads guarantee a satisfying experience with every press.
