

Heiman HS1RC-E Tuya Smart Zigbee Remote Controller

Ref: 5906168433450

Heiman HS1RC-E Tuya Smart Zigbee Remote Controller

Heiman HS1RC-E smart ZigBee remote control.

The Heiman HS1RC-E remote control is a device designed to protect your home while you are away. It allows you to remotely control your smart home without the use of a smartphone, allowing you to arm or disarm a lock or call for help by pressing a single button. This makes it ideal for the elderly and children. It has a compact and stylish design and uses Zigbee technology with ultra-low power consumption for long battery life. The standard ZHA protocol allows for easy integration with other smart home devices, and a low-battery notification function ensures reliable operation.

Zigbee technology

The device uses Zigbee technology to wirelessly connect to other devices in the smart home network. Thanks to the standard ZHA protocol, the remote control is compatible with a wide range of devices, allowing easy integration and expansion of the home automation system.

Low energy consumption

The Heiman HS1RC-E remote control is designed with minimal power consumption in mind, allowing for longer battery life. As a result, you don't have to worry about changing batteries frequently, making the device more convenient and reliable.

Compact and stylish design

The remote control features a small, fashionable design that blends well with modern interiors. Its compact size makes it easy to carry and use for convenience.

Low battery notifications

The remote control is equipped with a low-battery notification function to ensure continuous operational readiness. The user is notified in real time when the battery needs to be replaced, eliminating the risk of unexpected shutdown.
