

## Outdoor WiFi Camera IMOU Bullet Pro 3MP

Outdoor WiFi Camera IMOU Bullet Pro 3MP

Ref: 6923172544537

### IMOU Bullet Pro 3MP WiFi outdoor camera

Stock up on a camera that will provide you with reliable monitoring no matter what the situation. The IMOU Bullet Pro offers high-quality 3MP video and can intelligently detect motion - if someone comes within its range, you'll get an instant notification on your phone. The device also features a rugged, waterproof design, so it won't be intimidated by rain and other harsh weather conditions.

### High-quality image

The Bullet Pro camera offers 3MP (2304 x 1296) resolution, allowing it to capture detailed and clear images both during the day and at night. Thanks to the use of infrared, the camera can record even in total darkness at a distance of up to 30m. Ensure reliable protection of your property around the clock! The device also has a built-in microphone that allows you to record high-quality audio.

### Keep everything under control

Thanks to precise sensors, the camera intelligently detects movement, people and vehicles. As soon as someone suspicious comes within its range, it will immediately send you a notification to your phone. So you can react quickly enough in case of problems! You also don't have to worry about false alarms.

### Robust design

The Bullet Pro camera is IP67-rated, which means it is water and dust resistant. This makes it ideal for outdoor use - even in harsh weather conditions. The device is also equipped with a sturdy metal casing for long-lasting durability.

#### Several file storage options

The camera allows you to store files on microSD cards with a capacity of up to 256 GB. It is also compatible with Onvif-compliant NVRs. Each new user also gets free cloud access for 30 days. What's more, the H.265 codec means you can save high-quality recordings while taking up less storage space.

#### Imou Life app

Download the Imou Life app and gain access to additional capabilities. It allows you to conveniently manage your camera and monitor your home from anywhere! Now with just a few clicks, for example, you can watch and save selected recordings. You will also receive notifications on your phone.
