

IMOU Cell Go Kit Portable Camera (white) w/ Solar Panel IMOU

Ref: 6971927234059

IMOU Cell Go Kit Portable Camera (white) w/ Solar Panel IMOU FSP12

IMOU Cell Go portable wireless camera (white) + IMOU FSP12 solar panel set.

IMOU Cell Go with FSP12 solar panel is an ideal solution for those who need a reliable surveillance camera. The powerful 5000 mAh battery provides long runtime and can be recharged using solar power, while the 3 MP resolution guarantees high image quality and rich detail. The device also has a built-in siren, speaker and microphone. The Cell Go model will also prove useful as a portable camera for recording vlogs and more.

Powerful battery, hassle-free power supply

The Cell Go camera is equipped with a 5,000 mAh battery, which ensures long-lasting performance and reduces the need for frequent charging. What's more, with the included FSP12 solar panel, the device can be powered by solar energy, further extending the operating time.

High resolution

The Cell Go camera offers 3MP (2304x1296) resolution, allowing it to capture detailed and clear images both during the day and at night. With IMOU, you can be sure that your home is safe no matter what time of day it is!

Intelligent detection and notifications

Advanced AI detection technology allows you to detect motion and people with up to 99% accuracy. If someone suspicious comes within range of the camera, you'll know immediately - you'll receive a notification on your phone. The device can also set off a 90 dB siren to scare away any uninvited guests.

Two-way communication with voice change function

The camera has a built-in microphone and speaker, allowing free two-way communication. So you can easily convey an important message to the rest of the household or tell the courier where to put the package. A voice change function is also available, which will allow you to hide your identity when talking to strangers.

Easy installation

Installation of the camera is very simple and fast - you can easily mount it at the front door, in the garden or in the kitchen, for example. The device can also easily work in places outside Wi-Fi range - it will simply connect directly to your smartphone. It is also distinguished by its IP65 waterproof rating, which makes it resistant to changing weather conditions, such as rain or wind. There are also 6 camera modes, allowing you to customize it for different usage scenarios.

Convenient file storage

Don't worry about running out of space for your recordings. The camera offers up to 4 GB of internal memory. You can also take advantage of free cloud access for one year. A great option for IMOU product users is also the paid subscription service Imou Protect, which not only allows you to save files to the cloud, but also offers more advanced AI solutions and allows you to share devices with up to 20 other users.
