Waudog PitchDog17 fetch ring blue

The Waudog PitchDog fetching ring with a diameter of 17 cm will quickly become your dog's favorite toy. High-quality material was used to make it durable, lightweight and safe for your pet's gums and teeth.

Convenience for you and your dog

One of the biggest advantages of the PitchDog ring is its ergonomic shape. Thanks to the finger cutouts, the toy fits comfortably in your hand, making it easy to throw and grab. You won't feel hand fatigue even after prolonged play.

Joy and health in one

PitchDog also supports your dog's health. Chewing on the ring will provide him with a lot of fun, while helping to maintain healthy teeth and gums. Regular play with the Waudog fetch ring is a great way to give your pet a daily dose of exercise, which is essential for good physical condition.

Ideal both on land and in the water

Whether you're playing with your dog in the park, on the beach or in the garden, PitchDog will work perfectly! Thanks to its buoyancy, the ring floats on water - so it provides entertainment when playing on the lake or river. Its bright color makes it easy to locate it.
