

## Cordless Pool Cleaner AIRROBO PC10

Cordless Pool Cleaner AIRROBO PC10

Ref: 6931705006650

AIRROBO PC10 cordless pool vacuum cleaner

The AIRROBO PC10 cordless vacuum cleaner guarantees impeccable pool cleanliness effortlessly. It is equipped with 3 motors with 131 watts of power, and the maximum filtration speed is as high as 40 GPM (150 LPM). Thanks to this, the device is able to quickly and effectively remove all impurities such as leaves, sand or other small debris, as well as stubborn dirt on the surface of the pool.

Effective cleaning

AIRROBO PC10 is equipped with a special PVC brush, which has an extremely strong grip and effectively picks up all dirt, including fine particles and larger debris, such as leaves and sand. Thanks to it, the vacuum cleaner can cope with even the most stubborn dirt on the bottom and walls of the pool, guaranteeing satisfactory results.

Operating efficiency

Thanks to its ability to climb and stick to walls at angles of up to 90°, AIRROBO PC10 is able to reach hard-to-reach places. As a result, it provides comprehensive cleaning of every part of the pool. You can be sure that the vacuum cleaner can handle any challenge.

Long-lasting work

The 5200 mAh battery provides up to 150 minutes of operation. This makes the AIRROBO PC10 vacuum cleaner capable of thoroughly

cleaning even large pools without frequent recharging. It only takes about 2.5 hours to renew its energy.
