Monitor Koorui 24N1 23.8" 1920x1080px 75Hz

Ref: 6976210080184

### Koorui 24N1 23.8" 1920x1080px 75Hz monitor

The Koorui 24N1 monitor is an excellent choice for professionals, gamers and anyone who appreciates quality and comfort. This 23.8" monitor with Full HD resolution provides vivid and deep colors for excellent visuals. VESA compatibility (75 x 75 mm) allows for easy mounting on walls or specialized workstations, and features such as eye protection and cinema mode further enhance the user experience.

### Exceptional image quality

The Koorui 24N1 monitor features a 23.8-inch IPS display that guarantees natural color reproduction and wide viewing angles of up to 178°. Full HD resolution (1920 x 1080 pixels) provides a sharp and clear image, making every detail clearly visible. With a color gamut of 99% sRGB and support for more than 16.7 million colors, this monitor offers vivid and deep colors that come alive on the screen.

### High user comfort

With eye protection technology, the Koorui 24N1 Monitor minimizes visual fatigue during prolonged use. The Cinema Mode further enhances the quality of the content being viewed by adjusting the image settings to match the movies or TV series being watched to ensure the best possible visual experience. What's more, the monitor offers a tilt adjustment range of -5° to 15°, allowing users to adjust the viewing angle to suit their preferences.

### Optimal smoothness

The Koorui 24N1 offers a refresh rate of 75 Hz, providing exceptional smoothness of the image, ideal for dynamic scenes in games and movies. With a low latency of just 5 ms, you can enjoy fast and precise response to every command. This combination is crucial for gamers and professionals who expect reliability and instant response from their hardware!

### Versatility

The monitor is equipped with HDMI 1.4 and VGA ports, providing a wide range of connectivity options for different devices. The HDMI port allows you to transmit high-quality video and audio, which is ideal for connecting to modern computers and gaming consoles. The VGA port provides compatibility with older devices, allowing connection to older computers and other analog devices.
