Koorui GN07 27" 2560x1440px 170Hz monitor

Meet the Koorui GN07, a 27-inch monitor that combines high QHD (2560 x 1440) resolution and advanced features for unparalleled sharpness and image depth. Ideal for creative professionals and demanding gamers, the GN07 offers smoothness and precision that will bring out every detail in your graphic design projects, movies, or dynamic games.

Crystal clear QHD image quality

The Koorui GN07 monitor is sure to satisfy the most demanding users. With a 27-inch IPS screen with QHD (2560 x 1440) resolution, it offers unparalleled image sharpness and depth, making it an ideal choice for creative professionals and gamers. The high resolution provides a detailed and crystal-clear image that lets you see even the smallest details in graphic design projects, movies or games.

Colors that come to life

The GN07 monitor stands out for its excellent color reproduction, with coverage of 100% of the sRGB gamut and 90% of DCI-P3, ensuring vivid and accurate colors. The 1,000:1 static contrast ratio and 20,000,000:1 dynamic contrast ratio ensure deep blacks and intense whites. HDR10 technology further enhances dynamic range and tonal range, allowing you to enjoy an even more realistic and detailed image.

Smoothness and precision without compromise

With a refresh rate of 170 Hz and support for G-sync and Free-sync technologies, the GN07 monitor offers exceptionally smooth and stable frame rates, eliminating tearing and stuttering. The Overdrive function and MPRT technology with 1 ms response time minimize lag, providing instant response to every user action, which is crucial for both professional video editing and fast-paced gaming.

Long-lasting user comfort

The Koorui GN07 offers tilt adjustment from -5° to 20°, allowing the screen to be optimally positioned according to individual preference. Eye-protection technology reduces blue light emissions to minimize visual fatigue during hours of gaming. What's more, the VESA standard (75 x 75 mm) allows the monitor to be easily mounted on a variety of wall mounts or monitor arms, further enhancing the flexibility of your workspace configuration and allowing you to achieve the ideal ergonomics of your work or gaming station.

Ease of connection

The GN07 monitor is equipped with two HDMI 2.0 ports, DisplayPort 1.4 and an audio output, allowing easy and quick connection to multiple devices. Cinematic mode optimizes image settings for the best movie experience, transforming any movie session into a cinema-quality experience.
