

Freewell V2 Series 67mm Shield Filter Reducer

Freewell V2 Series 67mm Shield Filter Reducer

Ref: 6972971865411

Freewell V2 Series 67mm Filter Reduction.

Introducing the Freewell filter reduction, designed for photography enthusiasts who appreciate ease of use and reliability. Now you can easily adapt the filter to your camera equipment, enjoying smooth operation. The kit also includes a hood.

Magnetic attachment system

Discover the simplicity and speed of attachment through the use of magnets. You can instantly fit the reduction to the back of the filter or directly to the base ring. This intuitive system not only speeds up the preparation of your equipment for work, but also ensures that the filter remains stably and securely attached.

Versatile application

With a diameter of 67mm, the reduction is compatible with a wide range of VND filters, making it an indispensable piece of equipment for any photographer. Whether you do landscape, portrait or street photography, this product will make your work easier.
