Battery and HEPA Filter for INSE S10

The battery and HEPA filter set for the INSE S10 vacuum cleaner is the ideal solution for those who want to maximize the operating time of their device, while ensuring the highest quality of air filtration. The high-capacity battery provides long-lasting cleaning without the need for frequent recharging, while the HEPA filter effectively traps even the finest dust particles. In addition, the simple installation of both components allows you to quickly restore the vacuum to full capacity, ensuring a clean and healthy environment in your home.
