Petsuper Dog Automatic Retractable Leash 5m (white)

## Petsuper automatic leash 5m (white).

Petsuper automatic leash is an ideal solution for pet owners who value safety and convenience. Thanks to its solid construction and high durability, it is suitable for small, medium and large dogs. It remains reliable even under heavy loads, and the ability to lock it with one button gives you more control over your pet. Give your pet freedom of movement without worrying about its safety!

## Tangle-free

Petsuper PL01 will surprise you with its functionality. A special U-shaped opening allows the leash to rotate 360° and prevents tangling, a common problem with traditional models. This allows your dog to run freely and change directions - without the risk of getting something tangled!

#### Solid materials

The Petsuper automatic leash is made of the highest quality materials, which guarantees its durability and longevity. The use of high-strength nylon webbing and stainless steel moving parts ensures reliability and resistance to damage. In addition, the leash has a non-slip handle made of TPU, which guarantees a firm grip and comfort during walks.

Easy operation

Mobilemax - Gadgets and Accessories Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal (Continente)

Ref: 6975447710109

The intuitive locking system allows you to quickly and easily adjust the length of the leash. With one button, you can instantly stop your dog or let him run free. This is the perfect solution for owners who value full control over their pet during walks.

#### Resistance to rust

The snap hook of the Petsuper leash has been coated with a layer of chrome, which protects it from corrosion and ensures a long service life. Regardless of weather conditions, the product retains its properties and remains in excellent condition, making it an investment for years.

#### Versatility

The Petsuper automatic leash is a universal product that will work for most dogs weighing up to about 50 kg. Regardless of the breed and size of your pet, it will provide adequate space for him to explore his surroundings, while guaranteeing full control and safety.
