

## Uperfect Portable Monitor UGame C2 16" 2560x1600 120Hz

Ref: 5906168438271

Uperfect Portable Monitor UGame C2 16" 2560x1600 120Hz

Uperfect UGame C2 16" 2560x1600 120Hz portable monitor

The Uperfect UGame C2 is a monitor that offers a refresh rate of 120Hz and a resolution of 2560\*1600 (QHD), which translates into clear and detailed images. Thanks to its lightweight and portable design, you can use it anywhere and anytime. The monitor is especially recommended for PS4, PS5, Switch, Xbox, Switch and other gaming devices.

Immerse yourself in a virtual world

The monitor provides rich detail and image clarity, making gameplay more immersive and enjoyable. The refresh rate of 120 Hz makes games look more realistic and animations smoother and more natural. It allows gamers to better track movement and react quickly to changing situations, improving the visual quality and performance of games and providing gamers with a more immersive and enjoyable experience. This makes it an excellent choice for gamers who want to take their gaming experience to the next level.

High image quality

Play your favorite games without worrying about distractions. A response time of 9 ms translates into a smooth image with no tearing. In addition, HDR provides more vivid colors and highlights the details present on the screen. At the same time, it enhances contrast and provides wide color gamut coverage. As a result, the image is more realistic, which translates into a better gaming experience.

### Feel like the hero of your favorite title

With a high resolution of 2560\*1600, the monitor makes every detail of the image clearer. What's more, the IPS screen provides a full 178° viewing angle, so you'll see the image from multiple angles. In addition, the 1200:1 contrast ratio translates into a more vivid image.

### For the convenience of gamers

The monitor was designed with e-sports enthusiasts in mind. It has a VESA hole (75\*75mm@M3\*4mm), so it can be mounted on a desk or wall. In addition, the bezel is just 2.5mm for even more convenience. In turn, its weight of 0.8kg makes it portable, so you can take it with you almost anywhere, such as to work or on a trip.

### Several available ports and wide compatibility

The monitor is equipped with mini HDMI, AUX, micro USB and x2 USB-C ports. As a result, you can successfully connect devices such as PlayStation, smartphone, laptop, camera, Steam Deck, etc. to it. As a result, the IPS monitor not only provides great entertainment, but also improves quality of life and productivity.

### Additional features

The monitor uses UCare technology, which reduces more than 80% of blue light and reduces its harmful effects on the eyes. What's more, two speakers located in the corners of the screen and stereo sound take entertainment to the next level. The available AUX port will allow you to connect headphones so you can fully immerse yourself in high-quality sound.
