

Uperfect Portable Monitor UStation Delta Max 18,5" 1920x1080

Ref: 5906168438288

Uperfect Portable Monitor UStation Delta Max 18,5" 1920x1080 100Hz

Uperfect UStation Delta Max 18.5" 1920x1080 100Hz portable monitor

Take your productivity to the next level with the Uperfect Delta Max. Portable monitor is the perfect solution for those looking for high image quality in a portable format. With two 18.5" screens and Full HD (1920 x 1080) resolution, it provides an exceptional visual experience and effectively increases your workspace. With a refresh rate of 100 Hz and a response time of 16 ms, it is ideal for both work and entertainment. The dual screens can be used together or operate independently to increase productivity.

Amazing image quality

The Uperfect Delta Max is equipped with 2 IPS displays, which guarantees wide viewing angles of up to 178° and vivid colors thanks to 100% coverage of the sRGB gamut. The 1000:1 contrast ratio and 300 cd/m² brightness make the image clear and sharp, regardless of lighting conditions. HDR technology further enhances the image quality with deeper blacks and brighter whites, and the 1080p resolution makes the Delta Max suitable for video or photo editing tasks.

Ergonomic design

The Delta Max monitor uses vertical dual screens. The ability to adjust the angle of both screens allows you to customize their position. Depending on the task at hand, you can unfold the screen to increase your workspace or fold it in half to share meeting content with colleagues or clients on either side.

Wide compatibility

With Type-C and mini HDMI interfaces, you can easily connect the screens to the hardware of your choice without installing drivers. Both screens can also be connected to 2 separate devices. Delta Max is compatible with laptops, PCs, tablets, smartphones, gaming consoles. It works perfectly with Windows, Mac, Chrome, iOS and Android operating systems.

Flexibility and mounting

The Delta Max monitor has four 75 x 75 mm holes that allow VESA mounting. This, in turn, allows it to be installed on a desk or wall, saving space and improving space utilization. In addition, the built-in stand allows you to freely adjust the tilt angle, so you can adjust the position of the monitors to suit your needs.

Additional capabilities

The Delta Max features dual speakers (8Ω 1W) that deliver stereo sound for an immersive audio experience. What's more, Ucare technology reduces blue light emissions by more than 80% and protects your eyes. In addition, the special design reduces the flickering effect, ensuring comfort even when working or playing for long periods of time.
