The brightness of 300 cd/m² and the contrast ratio of 1000:1 ensure clear and vivid colors, while the wide 178° viewing angle allows comfortable viewing from almost any position. The monitor also supports HDR technology, which adds depth and realism to the displayed content, and the 100% sRGB color gamut guarantees accurate color reproduction.

Smoothness and responsiveness

The 144 Hz refresh rate and 9 ms response time make the Uperfect UGame K7 monitor an ideal choice for dynamic games and movies. These parameters ensure a smooth and fast display, which is crucial for shooting games, racing and other demanding applications. FreeSync technology further eliminates image tearing and stuttering.

Durable design

Made of aluminum, the monitor's housing provides durability and strength. The monitor's slim 12mm-thick design and weight of just 0.97kg make it easy to carry and ideal for on-the-go use. The monitor can also be mounted on a VESA mount (75x75mm) on a wall or desk, increasing flexibility of use.

Built-in speakers and high quality sound
