Wireless Headphones PowerLocus MoonFly, ANC (black)

PowerLocus MoonFly wireless headphones, ANC (black)

Meet the PowerLocus MoonFly wireless headphones with active noise cancellation (ANC) - the perfect combination of advanced technology, elegant design and exceptional comfort. They offer a long operating time of up to 70 hours, excellent sound quality and numerous features that make them an excellent choice for even the most demanding users.

Active noise cancellation (ANC)

The PowerLocus MoonFly offer advanced ANC technology that reduces ambient noise to about 20 dB. This allows you to fully focus on your music - outside noises will no longer distract you! It's ideal when traveling, at work or at home.

Extended operating time

The PowerLocus MoonFly headphones provide an impressive runtime - up to 45 hours with ANC enabled and up to 70 hours if you don't use it. So you can enjoy your favorite tunes for a really long time - at home, at work or on a trip. Don't be afraid that your equipment will refuse to serve you too quickly!

Various connection options

The PowerLocus MoonFly offer the possibility to connect both wired, using a 3.5mm audio cable, and wirelessly, thanks to Bluetooth 5.3

technology, which ensures fast and stable transmission in almost any conditions. What's more, Multi Point technology allows you to pair them with more devices simultaneously. The headphones also feature wide compatibility - they work seamlessly with laptops, smartphones and more.

Exceptional sound quality

With 40mm drivers and a wide frequency response of 20-20000 Hz, the headphones deliver full, deep and detail-saturated sound. This means they will perform fantastically in a variety of applications - not only when listening to music, but also when watching movies or playing games. Enjoy high-quality sound no matter what the situation!

Comfort and durability

The headphones are designed for maximum comfort. Soft, 90° rotating earcups made of memory foam and an adjustable headband ensure comfortable wearing even for long periods of time. PowerLocus MoonFly are also very durable - don't be afraid of damaging them quickly. They are also distinguished by their light weight (about 202 g) and foldable design, which makes them much easier to store and transport. They can accompany you almost anywhere!

Ideal for conversations

Do you need headphones that will also come in handy during phone calls, online games or video conferences? PowerLocus MoonFly will be a real hit! Thanks to the built-in microphone, they will perfectly register your voice, giving you the confidence that your interlocutors will hear you without any problems.
