PowerLocus P3 Wireless Headphones (black)

Discover elegance and advanced technology in the PowerLocus P3 wireless headphones, which combine excellent sound quality and exceptional comfort. With a long operating time (up to 50 hours), reliable Bluetooth 5.3 connectivity and high-end 40mm drivers, they will be the ideal choice for demanding users.

Long operating time, fast charging

One of the biggest advantages of the headphones is their long working time, which is about 40-50 hours. What's more, you only need about 2 hours to charge them. You don't have to wait too long! In addition, PowerLocus P3 support fast charging - you only need about 10 minutes to enjoy music for another 3 hours.

Two connection options

The PowerLocus P3s offer great flexibility thanks to their ability to connect both wired, using a 3.5mm audio cable, and wirelessly, using Bluetooth 5.3 technology, which provides stable, reliable transmission and low latency regardless of conditions. So you can freely switch between devices and listen to music the way you want! Multi Point technology is also available, which allows you to pair the headphones with more than one device at the same time.

Sound that will delight you

Experience how good your favorite songs can sound. The headphones use high-quality 40mm drivers and offer a wide frequency response of 20 Hz to 20,000 Hz. As a result, they provide deep, richly detailed sound and excellent sound quality that will meet the expectations of even the most demanding users.

Exceptional comfort

Do you often listen to music for long hours? Take care of your comfort! The earcups of the headphones are lined with exceptionally soft materials, making them very comfortable. In addition, the adjustable headband design allows you to adjust it to your needs. PowerLocus P3 are also very lightweight (only 191 g) and feature a foldable design - transporting and storing them won't be a problem for you.

Built-in microphone

Stock up on headphones that will also work well for phone calls, playing online games or participating in online meetings. The P3 model has a built-in high-quality microphone that will reliably record your voice, providing excellent sound quality. Thanks to this, your interlocutors will hear you without any problems!
