Sonic toothbrushes with head set and case FairyWill FW-507 (Black and pink)

Ref: 6973734202726

FairyWill FW-507 sonic toothbrushes with head set

Amaze everyone with a dazzling smile. The ADA-approved FairyWill FW-507 sonic toothbrush generates vibrations at up to 40,000 per minute and offers 5 modes to choose from. It is also equipped with a smart 2-minute timer. Its long-lasting battery provides up to 30 days of use on a single charge. The set includes up to 2 toothbrushes - black and pink, 2 carrying cases and 8 interchangeable tips (6 standard and 2 for interdental spaces). This is an ideal choice for families or couples!

Even more thorough cleaning

High vibration frequency enables the FW-507 sonic toothbrush to thoroughly clean your teeth in as little as 2 minutes! The device is also equipped with an intelligent timer, which every 30 seconds with a short pause reminds you to change the brushed oral area. After 2 minutes, the toothbrush will turn off automatically.

5 operating modes to choose from

Customize the action of the toothbrush to suit your needs. The device offers 5 modes to choose from. Clean is perfect for everyday use, while White will get rid of the most stubborn tartar and stains. Massage mode massages your gums and Polish mode polishes your front teeth. A gentle Sensitive mode is also available.

Waterproof

Use the toothbrush in the shower or bath without worry. It's IPX7 waterproof, so you won't be splashed! You can also safely wash it under running water after each use, extending its life and reducing the risk of bacteria proliferation.

Interchangeable heads included

The set includes 8 interchangeable toothbrush heads. You can distribute them among your family members or keep them for yourself as a spare. You don't have to remember to replace them either! After a while, the colored bristles of the tip will start to fade, which means you should throw it away and install a new one.

Long runtime

The toothbrushes are equipped with long-lasting rechargeable batteries that allow them to serve you perfectly for up to 30 days on a single charge. It takes about 4 hours to recharge them. The devices support a voltage range of 110-240V, which means that you can easily connect them not only to a regular mains charger, but also to a powerbank or a laptop, for example.
