Main brush for Airrobo P20/P30

The main brush for Airrobo P20 and P30 cleaning robots is an essential accessory for maximum cleaning performance. It was created from durable, environmentally friendly materials and is equipped with V-shaped nylon bristles that adhere perfectly to the floor, increasing vacuuming efficiency. If necessary, you can also easily disassemble it and clean it - it won't cause you any problems, even if hair or dander gets caught in it. Its installation is also very simple and fast - no tools are required. To maintain optimal performance of the cleaning robot, it is recommended to replace the brush every 2-3 months.
