Satisfyer Hot Lover heated vibrator

Discover hot sensations with the Satisfyer Hot Lover and let yourself have unforgettable moments full of passion and pleasure! With two powerful motors that can be controlled independently, you can customize the sensations to your liking using the control panel on the vibrator or the Satisfyer Connect app. A unique feature of this device is the heating function - the shaft of the vibrator can be heated up to 39°C for an extremely realistic sensation.

Sensual stimulation

The Satisfyer Hot Lover combines the vibration function with heating to deliver intense stimulation. You can choose from 12 pre-set vibration programs or use the Satisfyer Connect app, which offers unlimited programs. The shaft heating function up to 39°C provides a realistic sensation close to natural body heat, which increases pleasure and makes it easier to reach orgasm.

Exceptional sensations

The Satisfyer Hot Lover's ergonomically curved shaft and clitoral stimulator are designed for maximum satisfaction. The curved shaft perfectly adapts to the anatomical shapes of a woman's body, precisely reaching the G-spot for intense and deep internal stimulation. At the same time, the clitoral stimulator, located on the outer part of the device, delivers powerful vibrations directly to the most sensitive area, which is the clitoris. This dual stimulation provides a unique sensation that leads to faster and more intense orgasms.

Endless customization possibilities

The Satisfyer Hot Lover can be paired with the free Satisfyer Connect app, available on iOS and Android. The app allows you to create your own vibration programs, synchronize vibrations with your favorite music on Spotify, and control the device remotely. So you can enjoy a unique experience tailored to your mood.

Waterproof and easy to clean

The Satisfyer Hot Lover is fully waterproof (IPX7), which means you can use it in the bath or shower without worry. After use, the vibrator can be easily cleaned with warm water, mild soap and erotic toy cleaner. What's more, the vibrator is made of high-quality, body-friendly silicone, which is extremely soft and gentle to the touch.

Always ready for action

Hot Lover is equipped with a rechargeable lithium-ion battery, which ensures long-lasting use without the need for frequent charging. Thanks to the included magnetic USB cable, charging the vibrator is extremely easy and convenient. Just plug the cable into the magnetic port and the device will quickly regain full power. This ensures that your vibrator is always ready to use whenever you feel like it.
