

## Charger SkyRC NC2200 AA/AAA

Charger SkyRC NC2200 AA/AAA

Ref: 6930460007032

SkyRC NC2200 AA / AAA battery charger

SkyRC NC2200 is a AA / AAA battery charger, which also performs a number of various other functions. With its help you will charge, discharge and rescue your battery. What's more, the device can also connect cells and perform resistance measurements. The charger has 4 independent slots, so you can perform different operations at the same time.

Many useful functions

The charger is designed to perform a variety of useful functions. It charges your battery - even with Turbo Charge technology. What's more, you can also discharge or regenerate it, and the battery matching and IR measurement modes give you more leeway to optimise the performance of your power sources. With SkyRC NC2200 you have everything you need!

Powerful processor

The device is equipped with a powerful Cortex-M3 processor, which ensures efficient operation with reduced power consumption. The chip calculates the time to complete the charging process, optimising parameters in real time. What's more, the NC2200 benefits from circuit protection, safeguarding the batteries from damage.

4 independent slots

The device has 4 independent slots for AA / AAA batteries. This means that you can perform different operations on them at the same time. What's more, the interface is equipped with LEDs which will inform you about the status of the charging process. Red indicates that recharging is in progress, and green informs you that the cycle is complete.

#### High-quality display

You'll see all the key operating information on a clear VA screen. The white colour of the displayed messages stands in perfect contrast to the deep black background, which makes the interface clear and legible. Opt for quality without compromising on convenience!

#### Dedicated application

Want more information on battery status and the operation of the charger itself? Download the SkyCharger app to your smartphone and connect via Bluetooth. Analyse the condition of your battery to find out more about its performance. With SkyRC, you will gain the knowledge to make your life easier!

#### Kit includes

Charger

Power cable

Manual

Manufacturer

SkyRC

Model

NC2200

Supported battery type

NiMH / NiCD

Supported battery size

AA / AAA

Charging rate

0.2 - 2.2 A

Discharge rate

0.1 - 1.0 A

Weight

370 g

Dimensions

112.1 x 108 x 62 mm

Supported capacity

500 - 3200 mAh

Input power

DC 12 V / 2.0 A

Price:

**€ 47.50**
