Conch True Plus MIIIW Wireless Headphones (Black)

These excellent Conch True Plus MIIIW wireless headphones combine state-of-the-art technology, superior sound quality, convenience of use and stylish design. Ideal for everyday use, workouts, travel and entertainment, they provide an unparalleled sound experience and all-day comfort. Choose the Conch True Plus MIIIW and enjoy sound perfection in any situation!

Bluetooth technology for a reliable connection

The Conch True Plus MIIIW headphones are equipped with the latest Bluetooth 5.3 technology, which provides a perfect, long-lasting range of up to 10 meters. This allows you to enjoy full freedom of movement without losing connection quality. These headphones perfectly synchronize audio and video with low latency, making them ideal for listening to music as well as watching movies or playing games. Reliable and energy-efficient, the Conch True Plus MIIIW headphones are the perfect companion for every day.

Excellent sound quality and powerful bass

The Conch True Plus MIIIW headphones feature a 13mm driver that delivers powerful, deep bass and immersive sound, no matter what genre of music you're listening to. Intelligent noise cancellation further improves sound quality, eliminating unwanted background noise

and allowing you to fully immerse yourself in your favorite tunes. As a result, every note sounds clear and crisp, and music takes on a new, more intense dimension.

Lightweight and comfortable to wear every day

One earphone weighs just 3.4 grams, which makes them extremely comfortable to wear, even for long hours. Their lightweight design doesn't weigh down your ears, allowing you to enjoy intense music or gaming sessions without feeling uncomfortable. In addition, they are very easy to switch between mono and stereo modes, allowing you to wear one or both headphones for an excellent and immersive listening experience.

Waterproof and convenient touch control

The Conch True Plus MIIIW headphones are IPX4 waterproof, which protects them from splashes and sweat. This is ideal for active people who need reliable headphones for exercising, running or cycling. In addition, the touch panels on the headphones allow for very easy and quick operation - answer and reject phone calls, change songs, turn on and off gamer mode, and resume and stop playback, all with simple gestures.

Long-lasting battery for a full day

The Conch True Plus MIIIW offer long runtime thanks to a powerful battery that provides up to 18 hours of listening with the charging case. One full charge of the headphones allows for 4 hours of uninterrupted use, making them an ideal choice for long trips, days at work, or intense workouts. The headphones are compatible with a wide range of Bluetooth-enabled devices such as smartphones, tablets, laptops, as well as Windows and Mac operating systems.
