Ref: 6953460596689

Mechanical gaming keyboard Motospeed CK101 RGB (black)

Motospeed CK101 gaming keyboard

The Motospeed CK101 is a gaming keyboard with RGB backlighting that will meet the expectations of any gamer. Equipped with Outemu Red switches, it will prove itself during both gaming and typing. Thanks to the N-key rollover you can press as many of them simultaneously and be sure that your movements will be registered. The device is also compact and ergonomic - take it with you wherever you go and enjoy hours of comfortable gaming.

Gaming character

Configurable RGB backlighting gives the device a unique, gaming character. You can easily customize its appearance to your preference by selecting from the 14 available backlighting modes. That's why the CK101 can be a real eye-catcher on your gaming desk.

Solutions That Make Playing the Game Easier

The keyboard's mechanical switches provide an incredibly fast response time and an extremely comfortable gameplay - you will respond to your opponents' every move in an instant. Moreover, the possibility of locking the WIN key will allow you to avoid accidental interruptions of the game. The N-key rollover ensures that every keystroke is accurately recorded so you can break new records with ease.

Even easier to use

The keyboard's multimedia function keys make it even easier to use your computer. Use them to quickly and conveniently adjust playback volume, switch tracks, check your email or surf the Internet. Whether you're gaming or working, the CK101 will save you time!

Handy and ergonomic

The keyboard is lightweight, compact and handy. It also comes with a detachable cable, so you can transport it safely and easily when you need to. Its elegant yet ergonomic design takes the strain off your wrists and keeps your hands comfortable for long hours of gaming or work.
