

## 360° Outdoor Wi-Fi Camera IMOU Cruiser SE+ 3MP

360° Outdoor Wi-Fi Camera IMOU Cruiser SE+ 3MP

Ref: 6976391038936

IMOU Cruiser SE+ 3MP rotating WiFi outdoor camera

IMOU Cruiser SE+ 3MP is an advanced surveillance camera that provides full protection for your home all year round. With intelligent tracking, two-way communication and a rotating design, it is ideal for demanding users.

**Excellent image quality**

Capture every detail. With 3MP resolution, the camera provides clear, detail-saturated images regardless of conditions. In addition, the device rotates both horizontally and vertically, giving you the confidence that every nook and cranny is properly protected. Additional features of the Cruiser SE+ include up to 8x digital zoom and the ability to record video in color even at night.

**Auto detection and tracking**

The camera also offers automatic detection and tracking, so it can easily record a possible intruder. The device also has a built-in siren (110 dB), which will help effectively scare off uninvited guests.

**Weather resistance**

Thanks to its IP66 rating, the camera can serve you well even throughout the year. The device is resistant to harsh weather conditions - it is not intimidated by rain, frost, heat or strong sun. Do not be afraid of its rapid damage!

#### Free communication

The camera is equipped with a speaker and microphone, so it allows you to communicate freely with the people in the house. With its help, you can, for example, call a child playing in the garden for dinner, greet unannounced guests or ask a courier to put a package at the door.

#### Easy installation and configuration

The Cruiser SE+ supports a Wi-Fi connection, so it provides a strong signal and reliable transmission. It's also very easy to install - forget about tangled cables and complicated setup! The camera also allows you to conveniently store recordings on a microSD card (up to 256GB) or via an Onvif-compatible NVR. New users also get free 30-day access to the cloud.

#### Take advantage of the Imou Life app

With the Imou Life app, you can not only receive notifications and adjust camera settings, but also, for example, check the live preview and view and save recordings. Now full control is in your hands!

#### Included:

Camera Quick start guide Power supply Mounting template Mounting bracket Waterproof connector Set of screws
