

Electric Nail File Drill 5 in 1 ANLAN

Electric Nail File Drill 5 in 1 ANLAN

Ref: 6953156299733

Electric nail cutter 5-in-1 by ANLAN.

Now you can easily take care of your nails and give them the desired shape. The electric nail cutter by ANLAN offers 2 speeds to choose from, and thanks to the 5 included tips it will work for many applications. It only needs 2 AAA batteries (not included) to power it. In the package you will also find a glass file with a nano surface and a box for storing the tips.

Tailored to your needs

The device is equipped with a high-end motor, making it extremely efficient and surprisingly quiet. It also won't get excessively hot, so you don't have to worry about getting burned. The milling machine also offers 2 speeds - low (8100 rpm) and high (10500 rpm). So you can easily adjust its performance to your needs.

5 interchangeable tips

The milling machine is perfect for different types of nails and will work in a myriad of applications. This is made possible by the interchangeable tips included in the set. The metal cutter is used for exfoliation, while the white conical cutter allows you to give your nails the desired shape. The cylindrical cutter is suitable for polishing nails, while the pink cylindrical cutter is used for polishing them. The white cylindrical cutter allows you to shine your nails.

Cordless design

Say goodbye to impractical cables that limit your freedom. The ANLAN brand milling machine is cordless, so it provides comfort and can be conveniently used almost anywhere - at home, at the beauty salon, or even while traveling. You don't have to search for available outlets! The device requires 2 AAA batteries, which must be purchased separately.

Practical file included

Find out that it only takes a few seconds to make your nails smooth and shiny. The set includes a glass file with special nano-grooves on its surface. It allows quick yet safe polishing - it won't damage your nails and allows you to add shine in a short time.
