

Projector LED BlitzWolf BW-V7, 1080p, Android, Bluetooth

Ref: 5906168436840

Projector LED BlitzWolf BW-V7, 1080p, Android, Bluetooth

BlitzWolf BW-V7 LED projector/projector, 1080p, Android, Bluetooth

The BlitzWolf BW-V7 LED projector is a device that offers Full HD 1080p display and support for 4K for exceptional picture quality and a great visual experience. Its auto-focus function, extensive connectivity and numerous multimedia features make it ideal for home theaters, business presentations or outdoor entertainment.

Excellent image quality

The BlitzWolf BW-V7 projector features LCD display technology that provides 1920x1080 (Full HD) native resolution and support for 4K content. With a brightness of 850 ANSI lumens and a FOFO contrast ratio of 1000:1, the projector offers a bright and clear image, even in less favorable lighting conditions. The white color temperature of 8000K further improves the quality of the projected image.

Advanced automatic features

The BlitzWolf BW-V7 has an auto focus function, which allows you to quickly and precisely adjust the focus of the image without manual intervention. In addition, the projector is equipped with automatic trapezoidal correction, which ensures a straight and correct image regardless of the projection angle.

High quality sound

The BlitzWolf BW-V7 projector is equipped with two speakers of 5W each, which provide excellent sound quality with deep bass. With a built-in digital power amplifier and Bluetooth connectivity, additional speakers can be connected for an even better sound experience.

Connectivity and compatibility

The BlitzWolf BW-V7 supports both 2.4G and 5G Wi-Fi for a fast and stable network connection. The projector is equipped with multiple ports, including AV, headphone, HDMI, USB and a network port, providing a wide range of connectivity options for various devices. With Android 9.0, the projector supports more than 3,000 apps, including popular streaming platforms like Netflix, YouTube and Disney+.
