Supercolor RE magnetic blocks 60 elements GEOMAG GEO-384

Supercolor RE magnetic blocks 60 elements GEOMAG GEO-384

Discover Geomag Supercolor RE, a set that invites young builders ages 3 and up into the creative world of building with magnetic blocks. The package contains as many as 60 elements, which combine learning with fun, providing almost unlimited construction possibilities. The toy is made of 100% recycled plastic, so it will also be a great choice for those who are committed to eco-friendly solutions.

Room for imagination

The set includes small magnetic sticks, which guarantee an impressive power of attraction. Thanks to this, the child can easily create elaborate, yet stable and easy to modify constructions. In this way, young engineers will discover the basics of geometry and physics, combining learning with great fun.

Education becomes pleasure

Supercolor RE is not only great fun, but also an educational experience that promotes motor and coordination development, while developing creativity and imagination. This set is a great introduction to STEM methodology, sparking curiosity about the world and encouraging exploration of science through play.

Easy storage

The set comes with three boxes to help organize and store the blocks, making cleanup after play quick and easy. It also ensures that you don't have to worry about accidentally losing small pieces.

Set includes

28x magnetic stick
28x metal ball
2x square base
2x pentagonal base
