PLAUD Note AI Dictaphone (Black)

PLAUD Note is the world's first voice recorder to harness the power of AI, powered by ChatGPT. This ultra-slim, portable and elegant device is the ideal tool for professionals who want to increase their productivity and creativity. With advanced transcription and automatic recording summarization features, PLAUD NOTE is not just a voice recorder, but also a comprehensive business assistant. Along with the device, you get 10,000 minutes of Google cloud storage, Plaud apps and a free ChatGPT-4o access plan that allows you to transcribe and summarize 300 minutes of recordings per month.

Precise dual-mode recording

The PLAUD NOTE is distinguished by its dual-mode recording engine, which enables it to capture ambient sounds with unprecedented precision. It is perfect for recording live meetings, phone calls thanks to its magnetic case (compatible with MagSafe) and vibration conductivity sensor (V.C.S). As a result, the device provides excellent sound quality regardless of conditions.

Transcription and summaries from ChatGPT

One of PLAUD NOTE's key strengths is its integration with the advanced AI platform, ChatGPT. The device not only transcribes recordings with high accuracy, but also automatically summarizes them, creating useful notes from them. This is ideal for those who want to save time on manually transcribing and organizing notes.

Convenience and ease of use

PLAUD NOTE is designed for maximum convenience of use. A single press of a button allows you to start recording, making the device extremely intuitive and easy to use. Whether you're on the road, in a meeting or at the office, the PLAUD NOTE is always ready for action.

Long life and large capacity

The device offers up to 30 hours of continuous recording and 60 days of standby time, making it a reliable companion in any situation. With 64GB of internal memory, the PLAUD NOTE can store up to 240 days of recordings, assuming two-hour recording sessions per day.

Data security

Your data is always safe with PLAUD NOTE. The device provides a high level of privacy protection, and stored recordings are protected from unauthorized access. You can rest assured that your data is safe and available only to you.

Included:

Voice recorder
