GameSir G7 SE wired controller (orange)

GameSir G7 SE wired controller (orange)

The GameSir G7 SE is the ideal choice for gamers who are looking for a controller that combines durability, precision and advanced personalization features. With innovative technologies such as non-contact magnetic sensors and Hall effect triggers, the controller offers an unparalleled gaming experience. On top of that, it opens up the ability to fully personalize the look and settings, as well as wide compatibility with different platforms. Enhance your gaming experience with the GameSir G7 SE and enjoy endless top-level gameplay!

Reliable precision and durability

GameSir G7 SE is a wired controller that takes the quality of gameplay to a whole new level with advanced technologies and innovative solutions. Equipped with non-contact magnetic sensors, GameSir G7 SE ensures that the sticks will never wear out, eliminating the problem of drifting and guaranteeing reliable, durable performance during every gaming session. It's a must-have controller for Xbox and desktop gamers who value precise and smooth control.

Exceptional smoothness and flexibility in gaming

Thanks to its finely tuned Hall-effect triggers, the GameSir G7 SE offers exceptionally consistent and smooth strokes, which are crucial in games that require quick reactions (such as racing games). The controller allows gamers to prepare for a race with full confidence and enjoy smooth gameplay like never before. The quick snap functionality allows the back buttons to be instantly activated or deactivated,

allowing you to easily adjust your playing style for complete control and flexibility.

Personalization at the highest level

The controller is designed for maximum personalization. The paint-friendly magnetic front panel allows gamers to easily customize and change the look of the controller. With GameSir Nexus software, players can map buttons, adjust the diagonal of the directional pad, adjust stick and trigger zones, and configure vibration. The ability to quickly switch profiles on the fly for different games with simple button combinations allows players to customize the controller's settings for any situation.

Compatibility and high performance

The G7 SE is fully compatible with Xbox Series X/S, Xbox One and Windows 10/11, allowing seamless switching between different platforms. The controller provides the smoothest and highest quality gaming experience with less lag, which is crucial for professional gamers. In addition, as a wired controller, the G7 SE eliminates concerns about low charge, ensuring uninterrupted gameplay for hours.
