HOTWAV Cyber 15 Smartphone - 6.6" 12+12/256GB Black

HOTWAV Cyber 15 is a premium smartphone that redefines the concept of multi-functionality and performance. Equipped with a powerful Helio G99 processor, 24GB of RAM, a 2K resolution screen and a 200MP camera, the Cyber 15 is the perfect combination of style, power and innovation. Every element of this device is designed to offer you an experience like you've never experienced before. This smartphone is a reliable companion for everyday challenges and adventures worth capturing.

Delightful design

HOTWAV Cyber 15 attracts attention with its slim silhouette (12.8 mm thick) and lightweight design (only 292 g). The unique design emphasizes its luxurious character. The device is equipped with durable Corning® Gorilla® Glass 3, which protects the screen from scratches and impacts while providing excellent image quality. In addition, it meets IP68 and IP69K standards and the MIL-STD-810H standard, making it resistant to water, dust, high pressure and extreme temperatures. It's a true warrior in the smartphone world that won't let you down even in the toughest conditions.

Richness of colors

The Cyber 15 features an impressive 6.6-inch FHD+ display with 2K (1080x2408) resolution, which provides incredible image clarity and vivid colors. With a refresh rate of 120 Hz, every movement on the screen is smooth, making it an ideal choice for gamers and

multimedia enthusiasts. A second 1.45-inch touchscreen on the back of the device adds a new dimension of interaction - allowing you to control apps, answer calls, check notifications and monitor power status or step count. It's a practical solution that makes life easier and more efficient.

Capture your adventures

HOTWAV Cyber 15 takes mobile photography to the next level. The 200MP ISOCELL main camera with PixSmart AI-Boost technology delivers unparalleled photo quality, capturing the finest details in every shot. With the smallest pixel size on the market at 0.56µm, the camera captures more light, resulting in better low-light photos. Super QPD Autofocus technology ensures fast and precise focus, while Smart-ISO Pro and Staggered HDR modes offer wide dynamic range and rich color. In addition, Sony's 32MP front camera and 24MP night camera ensure that every moment is captured in superb quality, regardless of the conditions.

Unparalleled performance

Under the hood of the Cyber 15 is a 6nm, octa-core Helio G99 processor that delivers exceptional performance and smoothness. With 24GB of RAM (12GB RAM + 12GB expandable VRAM) and 256GB of internal storage, the device is ready for any challenge - from intense multitasking to demanding games and apps. The 6280mAh battery provides long hours of use on a single charge, and the 33W fast charging feature allows you to replenish power in no time. The 10W charge-back feature allows you to charge other devices when needed.

Special features

The Cyber 15 also offers advanced security and usage features, such as face and fingerprint unlocking, glove mode, and DuraSpeed, which optimizes the device's performance and extends its life. Android 13 provides the latest features and security, enabling a personalized and secure experience.
